To see the tinge of healthy bloom in your face, to see your skin get clearer and clearer, to wake up without a beadache, backache, coated tongue or a nasty breath, in fact to feel your best, day in and day out, just try inside-bathing every morning for one week.

Before breakfast each day, drink a glass of real bot water with a teaspoonial of limestone phosphate in it as a harmless means of 'washing from the stomach, liver, kidneys and bowels the previous day's indigestible waste, sour lie and toxins; thus cleansing, sweeting and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully in vigorating. It cleans out all the sour fermentations, gases and acidity and gives one a splendid appetite for breakfast.
